This has been a hectic term for me and the class. Students have worked hard to improve their reading and numeracy levels and they performed well at our assembly at the end of Week 7. Various types of assessment have taken place, ready for the reporting process. It is pleasing to see how many children have progressed in reading levels and how many have moved further along the numeracy continuum. Students have presented their speeches for the public speaking competition and most have done a good job with preparation and presentation. Thanks to all the parents, grandparents and carers who helped the students with this preparation. It is not an easy task for any Year 1 or 2 student to get up and present a speech publicly or to their peers. Stage 1 winners who will represent at zone level next term are Aurora Gorton and Hayley Van Der Meulen.

This term students learnt about the past in their study of “The Way We Were.” They have learnt to compare the past with the present and have looked at how past events have impacted our lives today. In conjunction with this they have been learning to write recounts. Below are some photos of our students working with fractions and showing art works done throughout the term.
