Hello and welcome to Term 1.

1/2M is a fantastic class of 21 boys and girls. They have returned to Wadalba Community School settled, enthusiastic and ready to learn. 1/2M students are hardworking and always try their best.

Term 1 is always a very busy time as the children are establishing routines, responsibilities and expectations of their new class. They are learning about many new and exciting things across all Key Learning Areas and building upon skills learnt in Kindergarten and Year 1.

**English**

Every morning we have reading groups. During reading groups we learn about sounding out words, visual knowledge, expression, comprehension and how to read and write in a fun way.

**Mathematics**

Mathematics lessons are always fun in our classroom. Each week we learn about new concepts and strategies that help us become efficient in the different mathematical strands. So far this term we have learnt ways to add and subtract, skip count, create graphs, make arrays and identify 3D objects.

**Art**

We have been creating artworks and craft activities based around our HSIE unit “Celebrations”.

**Other**

We also enjoy using the computers, learning about the Letterland program and having fun during developmental play.
