What a fantastic start to the year we have had in 1D! It didn’t take long to settle in to our new room and get to know one another!

This term we have studied weather in Science and looked at the water cycle, seasons and natural disasters. We have experimented with water evaporating and presented the 'Month-a-rena' and 'Leaves are Falling' songs to the K-6 Assembly.

We have presented incredible Topic Talks in class on various topics and are becoming a lot more confident when talking in front of our peers.
We have created some wonderful art works with Mrs Collins representing all seasons of the year.

Our PE program has kept us very active as K-2 participate in Dance once a week and Sport on Fridays. We have thoroughly enjoyed the ‘Sports in Schools’ team visiting Wadalba this term and have participated in many exciting activities.

In Literacy groups we do independent activities and guided reading sessions. We have made progress in our reading levels and are becoming more confident when implementing reading strategies. Most of us have put in a huge effort to read each night at home!
In numeracy, some of the areas we have touched on include odd and even numbers and patterns on a hundreds chart, measurement, o’clock and half past times, addition and subtraction, double numbers and halving objects. We are becoming very quick at our number facts when adding numbers less than 20!

This term we were lucky enough to participate in a Rugby Union morning where a team of players taught us new skills.

We also had ‘Crazy Hair Day’ and ‘Shave for a Cure’ which was an entertaining and worthy event.
We had a great finish to the term with ‘Letterland’ Day. We dressed up as a character of our choice for the K-2 Parade. We then completed a rotation of 5 activities which involved creating a craft for Dippy Dick, Ippy Ink, Bouncy Ben and Golden Girl.

Thank you to all our parents who have assisted in the 1D classroom this term. We are looking forward to yet another productive and enjoyable term in Term 2!
