3G Report

3G have rocketed into Term 2 with a number of activities. We have participated in the NRMA Road Safety Day, enjoyed by all. Cross Country was an exciting affair. We are also studying a text, 'The Island' which has been enjoyable to date. Maths has been a ‘hands on’ affair. Students were involved in NAIDOC Celebrations. We made a large mural which everybody had a hand in!

Students were excited about fitting and wearing their bike helmets!

We learnt about inertia and the correct way to wear a seat belt too!

Students were definitely engaged in learning the symbols for fractions!
We learnt about square metres and had to construct a square metre using a variety of methods that the students came up with on their own.

NAIDOC artwork.

Enthusiasm plus! Everybody enjoyed the Cross Country.
