This term has been action packed. Students have been learning many new things.

We have been involved in two book studies. ‘Miss Lily and the Pink Feather Boa’ by Margaret Wild and ‘The Monster Who Ate Australia’ by Michael Salmon.

Students have been learning about adjectives, nouns, verbs and many other important parts of grammar. They have also been learning to spell many letter patterns and parts of punctuation whilst engaging their studies. They have been involved in creating many Artworks throughout each of these units of work.

During Mathematics all students have become very clever and participate in speed tests. They are learning to better their scores each day! Students are learning to solve word problems using Newman’s Analysis. They are becoming so clever that they can solve three digit addition problems. The students are enjoying hands on Maths activities as well.

We have been privileged enough to be involved in working at the AG Farm with Mr Drury. We have seen all the animals and can tell you what crops are growing at the moment. We have got some spinach growing and look forward to a crop in the future. We think James might have been the foreman!
We participated in Harmony Day activities, and ‘In School Sport.’ Our class was privileged enough to perform at the High School Assembly as well.

Rain, hail or shine students make good use of the COLA and quad!

We made pancakes and sushi! An unlikely combination!

What a spectacular time we all had. We are becoming the ultimate professionals.

I wish you all a safe and happy holiday and look forward to next term.
