Term Four has been a term filled with technical pursuits and scientific discovery. 4/5S have been utilising the fantastic IPad and laptop resources we have at our disposal to publish some amazing pieces of work in all KLAs. We wrote biography poems that were all about us and many of us used iMovie to turn these poems into some pretty amazing videos. These videos have been uploaded to Dropbox so that parents can view them. The link for dropbox has been shared on our class Facebook page. If you’re not on Facebook, I can pass it onto you. This term 85% of class parents have become members of this page. I have shared our class pursuits on here throughout the term. You may like to log on to revisit all of the wonderful things we have done.

These include –

**Our germ experiment**: We swabbed our school for germs and found that the germiest place was not the urinals but the lunch baskets!!

**The Lost Thing and Old Ridley** – In English, we studied two amazing books and compared them to a video version of The Lost Thing. We looked at literary techniques and how descriptive language is used to create interest and engage the reader. We then drew our own lost things that I have sent to the author in case he needs some ideas for his next book.
Mingara – Students loved our trip to Mingara where they had a splashingly good time😊

Movie Day – The school went to The Entrance to watch Alexander and the Terrible, Horrible, No Good Very Bad Day.

Leadership Speeches – I was lucky enough to hear some amazing speeches from various members of my class. Students then voted for the leaders they thought would do the best job.
Our leaders for next year are:

**Captains** – Trent and Nicole.

**Year Representatives** – Year 6 - Leila, Sharmaine and Kaylem. Year 5 - Luke

**House Captains** – Shakiya, Sienna, Alex H, Sophia, BJ and Blake.

Congratulations to these leaders.

As we come to the end of the year, I would like to congratulate 4/5S for a wonderful year filled with some amazing work. I have really enjoyed this enthusiastic bunch of kids who work together with respect and always approach their work with curiosity and interest. I look forward to watching them continue to grow and improve next year.

Mrs Snell
